

**2021 UTP DRAFT Project List - I-69 System in Texas**

July 14, 2020

The Draft **2021 UTP** list includes 58 projects on the I-69 System covering approximately 184 miles and with a construction cost of \$5.9 billion. (That compares to 64 projects and a cost of \$5.7 billion in the 2020 UTP). Eight projects were moved up into the "construct authority" category (2021-2024) and funding was increased for 20 of the I-69 projects already on the list. During the last year nine I-69 projects came off the list -- they are now under contract or soon will be.
